What AO-oil and AO-grease have achieved...

Inhibition of corrosiveness of metal and plastic parts

Suppression of temperature dependence of viscosity (power saving and expansion of operating temperature)

Prevention of gelation of lubricating oil (maintenance of long-term sliding properties)

Long-term durability over 20 years High corrosion resistance

Applicable to everything from engineering Plastic to metal Grease types: paste (AO-G08) and semi-solid (AO-G09)
